- Bhargavi was always available and could answer any question I presented! Great TA!
- Fine class, sometimes goes too fast and can be a little unwelcoming to simple questions
- In a class where we were graded mainly on our quiz scores, we often had 5 or less minutes to complete quizzes which made doing well very difficult
- She was very well prepared for class. Asked us to email her questions so that she would be well prepared to answer them in class.

- I really liked going to BhargaviÂ¿s office hours. I think sometimes she has the ability to get a little snarky when you email her about something... but she end up being helpful anyways. SheÂ¿s not one of my favorite TAÂ¿s but I did learn from her this semester so I thank her for that!
- no complaints
- None
- Overall, she was a good professor.

- Difficult course for people not too strong in math. Classes aren't the most planned.
- fair grading and support for students
- none
- This TA helped me a lot and explained the material very well. She cleared up any questions I had after lecture in our recitation.
